

## Carroll Extended Family Genealogy

Researched by Lindsey Munzel,  
Summer Intern, 2010.  
Updated by Brianna Arnold, Spring Intern 2011

This genealogical record was created as part of Lindsey Munzel's graduate level internship for John F. Kennedy University's Museum Studies Masters program.

How to use this record:

Ms Munzel gave each individual an identification number to the left of their name. Through this number an individual can be connected to their parents, siblings, spouses, and children. Each separated section provides details for a different nuclear family group of parents and children. The children can later be found by their identification number with their own family group.

If you have any additional information regarding members of this extended family, please contact the site manager of Mount Clare Museum House, via email at [director@mountclare.org](mailto:director@mountclare.org) who will then add the information to this record.
